Quick Reference — Feature Matrix 15

Introduction

SmartAppt is a comprehensive apartment association management platform that helps residents, committee members, and administrative staff manage dues, maintenance, visitors, announcements, and finances — all from one place.

This manual covers how to use SmartAppt based on your assigned role. Each role has a tailored set of features available on both the Web Application and the Mobile App.

Role Overview

Feature	What You Can Do
Manager	Full administrative access. Manages users, units, service requests, visitor logs, and accounting. Also has all resident features.
Treasurer	Financial authority. Manages dues configuration, billing, expenses, receipts, and accounting. Also has all resident features.
Committee	Oversight role. Views financial data, bills, and accounting reports. Also has all resident features.
Resident	Day-to-day living features: pay bills, raise service requests, pre-approve visitors, and read announcements.
Gate Staff	Operational gate management: record visitor entry/exit, scan QR codes, handle walk-ins.

Note: Manager, Treasurer, and Committee members are also residents of the complex. They have access to all resident features in addition to their administrative capabilities.

Manager

Full administrative access + all resident features

The Manager has the broadest access in SmartAppt. They oversee residents, units, maintenance, visitors, and financial reporting. They also have all resident features since they live in the complex.

Web Application

Configuration

Feature	What You Can Do
Manage Users	Add new users, edit details, deactivate accounts, assign roles. Bulk import residents via Excel template.
Manage Units	Add, edit, and delete residential units. Invite owners and tenants to units. Bulk import units via Excel.
Expense Categories	Create and manage categories used when recording community expenses.

Dues & Payments

Feature	What You Can Do
Bills & Payments	View all bills generated for the association. Track payment status (Unpaid, Partial, Paid, Waived). Record offline payments on behalf of residents.
One-Time Dues	Create special one-time charges targeting specific units (e.g. parking deposit, maintenance levy). Generate and manage the bills for these charges.

Transactions

Feature	What You Can Do
Receipts	Record miscellaneous income that is not a maintenance dues payment (e.g. hall booking, penalty fee).
Reports	View and export financial transaction reports for the association.

Accounting

Feature	What You Can Do
Chart of Accounts	Define and organise the accounting accounts used in the general ledger. Sync historical dues, expense, and receipt transactions into journal entries.

Feature	What You Can Do
Journal Entries	View all double-entry bookkeeping records auto-posted by billing, payments, and expense events.
Ledger	Filter and view account-wise transaction history across any date range.
Profit & Loss	View the income versus expense statement for any period.
Balance Sheet	View the association's financial position showing assets, liabilities, and equity.

Residents Section (also available as Resident)

Feature	What You Can Do
My Bills	View your own maintenance bills and pay outstanding dues online via Razorpay.
Service Requests	View ALL service requests across the association. Filter by status. Assign tickets to staff. Update ticket status. Raise your own request.
Announcements	Read community announcements, view polls. Post new announcements or polls for residents.
Expense Transparency	View the expense breakdown visible to all residents.
Documents	Upload and view community documents (circulars, notices, meeting minutes).

Visitors

Feature	What You Can Do
Visitor Log	View the complete visitor history for the association — name, unit visited, entry/exit times, and status.
Pre-Approve Visitors	Pre-approve an expected visitor and generate an OTP or QR code for gate entry. Manage your list of frequent visitors.

Mobile Application

On mobile, the Manager has a split experience: resident features for personal use, and full management access for service requests.

Screen	What You Can Do
Home	Personalised greeting with your name, association name, and unit. Shows count of ALL pending service requests across the association. Quick-action cards for Bills, Service, Announcements, and Visitors. Recent announcements feed.
Bills	View and pay your own maintenance bills. Pending bills show outstanding amount with Pay Now button. History shows all paid bills.
Feed	Read community announcements and vote on polls.

Screen	What You Can Do
Service	View ALL service requests with status filter (All / Submitted / In Progress / Resolved...). Tap a ticket to update its status. Raise your own new request via the + button.
Visitors	Choose Visitor Dashboard (full activity log) or Pre-Approvals (pre-approve visitors, manage frequent visitors).
More	View your profile (name, unit, association, role). Change M-PIN. Quick links to all features. Logout.

Treasurer

Financial management authority + all resident features

The Treasurer manages the full financial lifecycle of the association: configuring fees, generating bills, recording expenses, tracking receipts, and maintaining accounting books. They also have all resident features.

Web Application

Configuration

Feature	What You Can Do
Fee Configuration	Set monthly maintenance fee amounts per unit type. Configure penalty slabs and charge types. Enable automatic bill generation on a chosen day of the month.
Razorpay Setup	Enter the Razorpay Key ID and Key Secret to enable online payment collection from residents.
Expense Categories	Create and manage categories for community expense tracking.

Dues & Payments

Feature	What You Can Do
Bills & Payments	View all generated bills. Generate monthly bills for all units. Rollback a billing period if needed (only if no payments exist). Record offline cash/cheque payments. Track partial payments and arrears.
One-Time Dues	Create targeted special charges (e.g. special assessment, corpus fund) for selected units. Generate bills and track collections separately.

Transactions

Feature	What You Can Do
Expenses	Add, edit, and delete community expenses with category, vendor, amount, and date. View expense dashboard with category-wise breakdown.
Receipts	Record miscellaneous receipts not related to maintenance dues (e.g. hall hire, event fee).
Reports	View and export financial reports covering dues, expenses, and receipts.

Accounting (Full Access)

Feature	What You Can Do
Chart of Accounts	Define accounting accounts and sync historical transactions into journal entries.
Journal Entries	View auto-posted double-entry records for billing, payments, and expenses.
Ledger	Account-wise transaction history with date range filters.
Profit & Loss	Income vs expense statement for any period.
Balance Sheet	Association financial position — assets, liabilities, equity.

Residents Section (also available as Resident)

Feature	What You Can Do
My Bills	View and pay your own maintenance bills via Razorpay.
Service Requests	View your own tickets. Raise a new maintenance request.
Pre-Approve Visitors	Pre-approve expected visitors and manage frequent visitors.
Announcements	Read community notices and vote on polls.
Expense Transparency	View community expense breakdown.
Documents	View community documents.

Mobile Application

On mobile, the Treasurer has the same resident experience as other members.

Screen	What You Can Do
Home	Greeting with association name and unit. Outstanding bill summary. Quick actions for Bills, Service, Announcements, Visitors.
Bills	View all your bills (pending and history). Pay via Razorpay.
Feed	Read announcements and vote on polls.
Service	View and track your own service requests. Raise a new request.
Visitors	Visitor Dashboard and Pre-Approvals.
More	Profile info, Change M-PIN, shortcuts, Logout.

Committee

Oversight and review access + all resident features

Committee members have read access to financial data, dues, and accounting reports. They can post announcements and have all resident features. They do not configure fees or generate bills.

Web Application

Dues & Payments (Read Access)

Feature	What You Can Do
Bills & Payments	View all bills across the association and track payment status. Cannot generate or rollback bills.
One-Time Dues	View one-time due entries and their collection status. Cannot create or modify.

Transactions

Feature	What You Can Do
Expenses	View expense dashboard showing category-wise community spending. Cannot add or edit expenses.
Receipts	View miscellaneous receipts recorded by the Treasurer.
Reports	Access financial transaction reports.

Accounting (View Access)

Feature	What You Can Do
Journal Entries	View all accounting journal entries.
Ledger	View account-wise ledger with date range filtering.
Profit & Loss	View income and expense statement.
Balance Sheet	View the association's financial position.

Residents Section (also available as Resident)

Feature	What You Can Do
My Bills	View and pay your own maintenance bills via Razorpay.
Service Requests	View your own tickets. Raise a new maintenance request and submit feedback after resolution.

Feature	What You Can Do
Pre-Approve Visitors	Pre-approve expected visitors and manage frequent visitors.
Announcements	Read and post community announcements. Create polls.
Expense Transparency	View community expense breakdown.
Documents	View community documents.

Mobile Application

On mobile, the Committee member has the full resident experience.

Screen	What You Can Do
Home	Greeting with association name and unit. Outstanding bill summary. Quick actions for Bills, Service, Announcements, Visitors.
Bills	View all your bills (pending and history). Pay via Razorpay.
Feed	Read announcements and vote on polls.
Service	View and track your own service requests. Raise a new request. Submit feedback once resolved.
Visitors	Visitor Dashboard and Pre-Approvals.
More	Profile info, Change M-PIN, shortcuts, Logout.

Resident

Personal living features — bills, service, visitors, announcements

Residents are the primary end-users of SmartAppt. The platform is designed to make day-to-day living easier — pay dues online, report issues, manage visitors, and stay informed about community news.

Web Application

My Bills

Feature	What You Can Do
View Bills	See all bills raised for your unit — both pending (Unpaid, Partial) and historical (Paid, Waived).
Pay Online	Pay outstanding dues securely via Razorpay. Partial payments are also accepted.
Outstanding Summary	A banner at the top shows your total outstanding amount and number of pending bills.

Service Requests

Feature	What You Can Do
View My Tickets	See all maintenance requests you have raised, with current status and history.
Raise a Request	Submit a new maintenance request with title, category, priority, description, and up to 3 photo attachments.
Track Status	Follow your ticket through Submitted → Acknowledged → In Progress → Resolved.
Submit Feedback	Once a ticket is marked Resolved, rate the resolution (1–5 stars) and add a comment. This closes the ticket.

Visitors — Pre-Approve

Feature	What You Can Do
Pre-Approve a Visitor	Enter visitor name and expected date/time to generate an OTP or QR code. Share this with your visitor for smooth gate entry.
Frequent Visitors	Save trusted visitors (e.g. domestic help, regular delivery) so you can pre-approve them quickly without re-entering details.
Approve Entry Requests	If the gate staff requests approval for an arriving visitor, you can approve or deny it from here.

Other Features

Feature	What You Can Do
Announcements	View community announcements posted by management. Vote on polls.
Expense Transparency	View a breakdown of how community funds are spent, categorised by type.
Documents	Access uploaded community documents such as circulars, meeting minutes, and notices.

Mobile Application

The SmartAppt mobile app is designed for quick, on-the-go access to the most important resident features.

Screen	What You Can Do
Home	Personalised greeting with your name, association name, and unit number. Shows pending bill amount (if any). Quick-action cards for Bills, Service, Announcements, and Visitors. Recent announcements listed below.
Bills	View all your bills — Pending section shows unpaid/partial bills with Pay Now button. History section shows paid and waived bills.
Feed	Browse all community announcements in a timeline. Vote on active polls.
Service	View the maintenance requests you have raised. Tap a ticket to see status history and submit feedback (if Resolved). Use the + Raise Request button to report a new issue with photos.
Visitors	Choose Visitor Dashboard to see recent gate activity, or Pre-Approvals to pre-approve an expected visitor and manage your frequent visitors list.
More	View your profile: name, association, unit, and role. Change M-PIN (4-digit security PIN). Quick links to all features. Tap Logout at the top to sign out.

Login Options

Feature	What You Can Do
OTP Login	Enter your registered mobile number and verify with a one-time password sent via SMS.
M-PIN Login	If M-PIN is enabled, log in with your mobile number and 4-digit M-PIN for faster access. Set your M-PIN from the More screen after your first OTP login.

Gate Staff

Visitor management and gate operations

Gate Staff are responsible for managing visitor entry and exit at the main gate. SmartAppt gives Gate Staff the tools to verify pre-approved visitors, record walk-ins, and maintain a full visitor log.

Web Application

Gate Dashboard

Feature	What You Can Do
Scan QR / Verify OTP	Scan the QR code or enter the OTP that a resident shared with their pre-approved visitor to grant entry.
Record Entry	Mark a pre-approved visitor as Entered when they arrive at the gate.
Record Exit	Mark a visitor as Exited when they leave the premises.
Walk-In Entry	Record an unannounced visitor: enter their name, contact, and unit they are visiting. The resident receives a notification to approve or deny.
Emergency Alert	Trigger an emergency alert that notifies all managers and committee members immediately.

Visitor Log

Feature	What You Can Do
View All Visits	See the complete visitor history for the association: visitor name, unit visited, type (Pre-Approved, Walk-In), entry time, exit time, and current status.
Filter by Unit/Date	Narrow down the log by unit number or date to find a specific visit record quickly.

Residents Section

Feature	What You Can Do
Service Requests	View and update the status of maintenance tickets assigned to Gate Staff.
Announcements	Read community announcements.
Documents	View uploaded community documents.

Mobile Application

Gate Staff do not currently have a dedicated mobile experience in SmartAppt. Gate operations are best performed using the web application on a tablet or computer stationed at the gate.

Tip: The web application works on any mobile browser. Gate Staff can bookmark the SmartAppt URL on their phone or tablet for convenient access at the gate.
